Vehicles

Number of Vehicles (Must be more than 5) _____

General Requirements

Must have at least 5 regularly driven/operated vehicles to be eligible. This can include all residential and commercial vehicles as well as some industrial vehicles.

Fleet accounts can get up to 20% off all Detailing and Auto Service packages. Detailing and Auto Service Packages include Interior, Exterior, Engine Bay Detailing as well as Fluids, Brakes, Filters and General Maintenance Items.

Detailing packages are available for all residential and commercial vehicles as well as some industrial vehicles. Auto Service packages are available for all residential vehicles, some commercial vehicles but no industrial vehicles.

All fleet vehicles must be serviced same time/day depending on the size of the fleet in order to receive the full available discount. (varies)

If the fleet vehicles are serviced individually (ie; 1-2 at a time) will not be eligible for the full discount for that particular service and will receive their minimum discount based on their Tier. (varies)

The discount is not based on recurring or consecutive service (ie: every month, 2 months, 4 months etc) which means servicing can get them done as many or less times as pleased and the fleet discount will still be maintained.

Most requirements have some flexibility or variables to them as it depends on size of the fleet, usage of the fleet, company schedule, location etc. issues or concerns will be figured out verbally on a case by case basis to benefit both parties.

Standard pricing is listed on our website (peakautosolutions.com).
